### Trading statement

**At today's Annual General Meeting, The Rank Group Plc (LSE: RNK) (Rank or the Group) will announce the following trading update for the 16 weeks to 14 October 2018.**

Rank today announces Group like-for-like revenue for the 16 weeks to 14 October 2018 has declined by 4.9%. On a channel basis, digital revenue grew by 1.7% and venues revenue fell by 6.1%.

Grosvenor Casinos' venues like-for-like revenue was down 7.2% in the period driven by a reduction in handle and margin from high spending customers. Mecca's venues like-for-like revenue was down 5.0% driven by a fall in visits.

Mecca's digital channel continues to perform well with revenue up 6.4% in the period. Grosvenor Casinos' digital channel was impacted by the more stringent customer due diligence implemented from September 2017, which contributed to a revenue decline of 5.2% in the period.

YoBingo, a Spanish digital bingo operation, was acquired in May 2018 and is excluded from the like-for-like digital revenue numbers above. In the 16-week period YoBingo continued to perform strongly with like-for-like revenue up 46.0%. Total Group digital revenue, including YoBingo's contribution in the current period, grew 13.5% in the 16-week period.

The transformation programme has identified some early cost savings for the full year which, in part, are expected to mitigate Grosvenor Casinos venues' revenue shortfall in the 16-week period.
