Capital structure review and capital return

- £420m sale of Deluxe Film which completed on 27th January 2006
- £200m share buy-back announced
- £50m additional payment to be injected into Group pension plan in 2006; a further £50m of additional payments to be injected over the next four years
- New banking facilities agreed
- Dividend cover to be re-based to 2.0x
- Net debt to EBITDA operating range of 3.5x to 4.0x

Commenting on the results, Mike Smith, chief executive of The Rank Group Plc said:

“In 2005 we have sharpened the Group's focus through the sale of Deluxe Film and continued to lay the foundations for growth in Gaming and in Hard Rock.

“The operating performance of the Group has been mixed. Revenue growth in our Gaming division has not been sufficient to offset the combination of operating cost increases and Blue Square's lower win margins. However, Hard Rock grew revenues and profits as a result of increased contribution from its hotels and gaming interests and the continued improvement of company-owned cafes.

“The sale of Deluxe Film represents a watershed for Rank. As a consequence of the transaction we have reviewed our capital structure and our dividend policy and we have taken steps to further improve the funding of the Group pension plan. These actions have made possible a return of £200m to shareholders via a share buy-back.

“We have not yet been able to sell Deluxe Media but remain committed to this course of action. We are pursuing an exit and this may take the form of either a sale of the business in its entirety or, more probably, the separate disposals of individual businesses or assets.

“Our capital restructuring leaves capacity for the development of our Gaming businesses and of Hard Rock, where we have demonstrable opportunities for growth.”

CHIEF EXECUTIVE'S REVIEW

Introduction

The reporting of the Group's financial results for 2005 is affected by a number of changes to the Group's structure and by the introduction of International Financial Reporting Standards.

This is the first year that we have presented our accounts in accordance with International Financial Reporting Standards. As a consequence we have separated the performance of Deluxe Film and Deluxe Media Services (classified as "operations held for sale") within the income statement. This has reduced our adjusted pre-tax profits and earnings per share in 2005. The results for 2004 have been restated accordingly.

In addition we now report Blue Square's revenue as gross win where previously we had reported settled stakes. This has reduced Group revenues in 2004 and in 2005 but has no effect on reported profit.

Results – Continuing operations

The Group's 2005 adjusted operating profit was down 13.6% to £85.4m (2004: £98.8m). Group operating profit before exceptional items was down 6.3% to £127.5m (2004: £136.1m).

Hard Rock generated the strongest performance with increased revenues and operating profit rising 24.7% to £34.8m (2004: £27.9m). This was driven by increased contributions from Hard Rock's hotel and gaming interests as well as the continued resurgence of our owned cafes.

Despite slightly higher revenue, operating profit within our Gaming division was 9.6% lower at £105.8m (2004: £117.0m). Revenue in Mecca Bingo was broadly flat, with higher spend per head but lower admissions. In Grosvenor Casinos we experienced healthy rises in admissions but handle per head fell. Both businesses experienced margin pressure as a result of increases in operating costs (notably in energy procurement and from the rise in the National Minimum Wage).

Blue Square reported a small loss despite considerable gains in volume from on-line gaming, which for the first time exceeded sports betting in terms of total stakes.

Group structure and capital return

On 23 December 2005, we announced that we had reached agreement to sell Deluxe Film, our film processing and creative services business, to DX Holdings III Corporation, a subsidiary of MacAndrews & Forbes Holdings Inc. The transaction completed on 27th January 2006 for consideration of \$750m (£420m).

The Board has confirmed that £200m of the proceeds will be returned to shareholders via a share buy-back. The decision to return capital to shareholders was undertaken as part of a review of the Group's capital structure. This process is explained in greater detail below.

Discontinued operations

Deluxe Film generated operating profit before exceptional items of £65.7m (2004: £59.8m).

The sale of Deluxe Film is an important stage in the evolution of the Rank Group as we focus our investment and our efforts into the development of our gaming businesses and Hard Rock.

Deluxe Media reported an operating loss before exceptional items of £16.4m (2004: £9.6m profit).

We have not yet been able to sell Deluxe Media but remain committed to this course of action. We are pursuing an exit and this may take the form of either a sale of the business in its entirety or, more probably, the separate disposals of individual businesses or assets. In the short-term we are taking appropriate action to mitigate the impact on the Group of continuing to operate Deluxe Media, which will be loss making in 2006.

Pension fund

Following our agreement to sell Deluxe Film we entered into discussions with our Group pension plan trustee in relation to the funding requirements of the Group's defined benefit plan (which has been closed to new entrants since 2000).

As a result of these talks we have committed to make an additional one-off payment to the plan of £50m (this figure includes a £24m payment that, under section 75 of the Pensions Act, was required following the sale of Deluxe Film). Also we have committed to a series of subsequent contributions totalling £50m which will be paid into the plan over the course of the next four years. These are in addition to the Company's normal annual contributions.

This agreement is subject to formal clearance from the Pensions Regulator, who has confirmed agreement in principle to this proposal.

We believe that by taking action to address our pension liability we are safeguarding the long-term interests of our pensioners, our employees and our shareholders. As of 31 December 2005 our pension fund deficit was calculated under IAS 19 as £38.2m.

Review of capital structure and financing arrangements

The sale of Deluxe Film and our intention to sell Deluxe Media resulted in a review of the Group's financing arrangements. As a consequence of this review we have set out a capital structure appropriate for the Group as it develops into a focussed gaming and leisure business.

We have agreed a new £650m unsecured banking facility, structured as a £400m five-year multi-currency revolving credit facility and a £250m three-year term loan. Also, we have repaid our \$448m US private placement. Our £167.7m convertible bond (due 2009) and our \$114.8m Yankee bonds (due 2008 and 2018) remain in issue.

Over the medium term the Group expects to operate in a range of 3.5 to 4.0 times net debt to EBITDA.

As part of the review, we have also considered our freehold and long leasehold properties. Currently we are evaluating a structured sale and leaseback transaction of a number of suitable properties.

Final dividend and review of dividend policy

We are pleased to announce a 5.1% increase in the final dividend to 10.3p per share, making a total dividend for the year of 15.3p per share. The dividend will be paid on 11 May 2006 to shareholders on the register at 18 April 2006.

As part of our capital structure review, we have considered the appropriate level of dividend pay out for the ongoing Group. It is our intention to move to a dividend pay out ratio of 50% of profit after tax (2.0 times dividend cover), which is competitive for the leisure sector.

Gambling Act

In April 2005, the 2005 Gambling Act was enacted in Parliament. The first changes to gaming regulations allowed under the new Act took effect from October 2005.

The abolition of the 24-hour membership rule means that new members may enter and play in a casino or bingo club upon production of suitable identification, without the need to register 24-hours in advance. The maximum limit on the number of jackpot machines permitted in any casino has been raised from ten to 20 machines. In addition the maximum levels of jackpot machine stakes and prizes have been increased.

As anticipated, these early reforms have had little impact on our bingo operations but the initial signs in our UK casinos are positive. During the final quarter of 2005, Grosvenor Casinos experienced 13.2% growth in admissions and significant uplift in gaming machine revenues. With new members tending initially to stake lower amounts we saw also the expected decline in handle-per-head.

Under the 2005 Gambling Act, further reforms of UK gaming will take effect from 2007: in bingo, the regulations governing the use of roll-over prizes are to be altered; and in casinos advertising restrictions are to be eased.

Because the 2005 Act is not fully in force it has been possible to obtain additional casino licences under the 1968 Act. We now have seven additional licences (and three certificates of consent with licences pending) for casinos that will be opening from 2007. Under the 2005 Act, 17 new casino licences will be made available. These casinos will enjoy greater freedoms than those currently allowed by existing casinos. Based upon current information, it is our intention to apply for all 17 of the new generation of casino licences.

Smoking ban

In Scotland from 26th March 2006, a ban will be imposed on smoking in public places. At present we operate 14 Mecca Bingo clubs in Scotland out of a total estate of 118 UK clubs (although the contribution to Mecca profits from these clubs is disproportionately greater). We have no casinos in Scotland, although we have been granted licences for new casinos in Aberdeen and in Dundee.

We are taking measures to manage the introduction of the smoking ban in our Scottish bingo clubs and will monitor their effectiveness as we prepare for a UK-wide smoking ban from the summer of 2007.

Due to the comprehensive nature of the legislation in Scotland we believe that our bingo clubs are not competitively disadvantaged by the smoking ban. In the short term it is likely to impact trading as our members and our employees adapt to the changes.

Changes to VAT and Gaming Duty

In December 2005 the VAT-exempt status of Section 21 gaming machines was withdrawn. For reasons of timing this had a minimal impact on results in 2005 but we believe that it could depress 2006 profits by as much as £5m.

The Government has stated that it will seek to align the level of Amusement Machine Licence Duty across all categories of gaming machine. We await news on how and when this will be implemented, but recognise that it could impact on the profitability of our gaming machines.

Current trading and outlook

Since the start of 2006, revenue in Mecca is up slightly, with higher spend per head compensating for a 2% drop in admissions. Casino admissions are up 16% year-on-year but spend per head is lower. In Blue Square, total stakes continue to grow and win margins are stronger than over the same period in 2005. In Hard Rock, like-for-like sales in company-owned cafes are up by more than 10% over the same period last year, although this is due in part to the performance of our relocated cafe in New York City, which was opened in the summer of 2005.

Looking ahead, we are encouraged by the trend towards higher admissions in our casinos and the opportunity to grow handle-per-head from new members. And in both Mecca Bingo and in Grosvenor Casinos revenue from gaming machines will continue to be a key driver of growth. The advent of a smoking ban in Scotland, prospective changes to duty rates and increasing cost pressures pose challenges in both of these businesses.

We expect Blue Square's sports betting and on-line gaming to benefit from a busy sporting calendar, which includes the 2006 FIFA World Cup in Germany.

In Hard Rock we expect to achieve improved results across all of our activities, but with no significant uplift from new hotels and casinos, growth is likely to be slower than in 2005.

Following clarification of IAS 39, betting and internet gaming transactions are now shown net within the revenue line of the income statement i.e. stakes less payouts, known as gross win. There is no impact on reported profit. For the purposes of meaningful comparison, 2004 comparatives have been restated. The effect is to decrease 2004 revenue and cost of sales by £414m. Details of stakes placed are provided in the Gaming operating review.

Group revenue from continuing operations was up 2.9% mainly due to an increase in owned cafe revenue at Hard Rock.

Group operating profit before exceptional items was down 6.3% to £127.5m. Operating profit fell in Mecca Bingo, Grosvenor Casinos and Blue Square. Hard Rock generated significantly higher profits from its hotels and casinos and its owned cafes but this was not sufficient to offset the decline in the Gaming division. Central costs increased to £15.3m (2004: £12.9m) due largely to increased compliance costs and share based payment charges.

Adjusted Group profit before tax was down 13.6% at £85.4m, with the managed business interest charge £3.9m higher than in 2004 due to increased average levels of debt and higher US dollar interest rates.

The effective tax rate on adjusted profit is 24.9% (2004: 22.7%). The tax rate is lower than the Group's expected structural rate of above 30% as a consequence of certain prior year credits

partially offset by a write off of the deferred tax asset following a review of the deferred tax position in light of the disposal of the Deluxe Film business.

Adjusted earnings per share before exceptional items was 10.1p (2004: 12.7p), reflecting the lower level of Group operating profit.

As required by IFRS, foreign exchange movements on certain inter-company loans are recognised in the income statement as financial gains or losses. This has resulted in a £16.0m charge (2004: £5.9m gain), net of hedging gains, being recognised against the results of the continuing Group. In addition, the amortisation of the Group's £167.7m convertible bond's equity component has resulted in a £3.0m (2004 - £nil) charge being recognised in this income statement.

In light of the reduced opportunities presented by the 2005 Gambling Act, we have reviewed the Group's onerous lease provisions against vacant properties. As a result, the Group recognised an onerous lease charge of £12.1m within continuing operations. These costs have been shown as exceptional items.

The Group also incurred exceptional financing costs of £3.6m as a result of the closure of an outstanding issue with the tax authorities.

Total revenue of £295.6m in Mecca Bingo was slightly ahead of 2004 but operating profit edged down to £80.2m (2004: £81.0m). This performance includes a strong contribution from our business in Spain, Top Rank Espana, which grew operating profit by 29.9% to £10.0m, partly as a result of a first full year of trading from our club in Sabadell, Catalonia, which was acquired in December 2004.

In the UK, revenue generation from a slightly smaller estate (three clubs were closed with no new openings) was broadly flat with spend per head up 5.6% and admissions declining by 5.8%. Cost pressures from higher energy prices and the increase in the National Minimum Wage contributed to a 4.2% decline in operating profit to £70.2m.

	264.0	265.3	(0.5)

Revenues from interval games, main stage bingo and food & beverage all declined in 2005 as a result of lower admissions.

Our focus on expanding and upgrading our gaming machine areas generated growth of 7.1% from gaming machines despite the fall in admissions. During the course of the year, we installed 719 new gaming machines, including 488 Section 21 machines, 205 new AWP's and 26 jackpot machines. Also, we increased electronic bingo from 60 positions to 140.

Our strategy is to drive spend per head and generate club loyalty by consistently providing high prize, high excitement bingo and more ways for our members to game. From March 2006 we are introducing a new linked game into each of our clubs with a minimum prize of £20,000 on every night of the week. In addition we can now operate 'Cashlink' (linked mechanised bingo games) across our entire UK estate. And we aim to maintain the momentum we have established in machine revenues by installing in our clubs an additional 200 gaming machines over the course of the year.

We are opening two new Mecca clubs in 2006, at Crewe (opened in January) and at Paisley.

When it opens in March, the Mecca Fountain Park in Edinburgh (a licence relocated from the nearby Mecca Palais) will be the UK's first fully electronic bingo club. We believe that through innovative use of technology we have the potential to stimulate growth in both admissions and in spend per head. We will monitor closely the performance of the Fountain Park club as well as the trials of hand-held electronic bingo that we are undertaking in a number of traditional clubs.

In our Scottish clubs we will be adopting a number of measures to help manage the impact of the smoking ban. These include the expansion of bingo sessions to allow us to create scheduled breaks without reducing the number of games we are able to offer, and the use of 'Cashlink' games across all of our clubs in Scotland.

Strong growth in admissions in Grosvenor's provincial casinos contributed to a 3.5% rise in revenue for the year, but operating cost increases and a £3.2m impairment charge caused operating profit to decline to £27.3m.

As a result of increased promotional activity and the benefits of deregulation, active membership of our UK casinos finished the year up 46% at more than 455,000. For the first time, annual admissions to our UK casinos exceeded 4 million (admissions totalled 4.4 million - an increase of 9.8% on the previous year), but handle per head declined by 7.7%. Despite regional fluctuations, gross win margin in Grosvenor of 17.2% was broadly in line with 2004.

Hard Rock	395	377	155	142	17.7%	17.2%

London upper - our London upper casinos have performed well. Gains in admissions, handle-per-head and an improvement in win margin pushed revenues up by 6.4%. Operating profit increased by 26.3%.

London other - revenue from our mainstream London casinos, the Victoria, the Gloucester and the Connoisseur, was broadly flat for the year with admissions down 0.6% and handle per head up 0.8%. Operating profit was down 15.0%, due in part to lower second half win margin.

Provincial – We generated 13.0% growth in admissions across our estate of 29 provincial casinos, driven in part by the performances of the two casinos that we opened in 2004, at Stoke and at Bolton. An increase in lower-staking members caused handle per head to be diluted by 11.2%, while win margin of 16.5% was lower than in the previous year. Revenues grew by 3.9% but with higher costs and an increasingly competitive trading environment, operating profit dropped 9.3% to £22.4m.

Hard Rock – Our Hard Rock casinos grew admissions and handle-per-head for the third year in succession. Our Hard Rock Casino in Leicester Square had a particularly strong year.

Belgium - Our two casinos in Belgium, at Middlekerke and Blankenberge, improved markedly after a slow start to 2005, with strong year-on-year growth in second-half revenue and operating profit. For the year as a whole, revenue was up 4.0% to £12.9m, but operating profit fell £0.3m to £1.4m.

During the final quarter of 2005 we grew overall UK admissions by 13.2%, membership rose by 23% and gaming machine revenues increased significantly. As anticipated, handle-per-head (which does not include machines revenue) declined in this period with new members tending to stake lower amounts on table gaming.

We increased the number of electronic gaming machines across the estate from 913 to 1,319. This total comprises 524 jackpot machines and 710 electronic roulette terminals. In the majority of our clubs, we have achieved (or are close to achieving) the maximum permissible number of jackpot machines, although we have identified the opportunity to add to the 85 Section 21 machines that we had installed by year-end.

In 2006 we plan to relocate two existing casinos, in Manchester and Luton, as well as completing the extension of our existing casino in Reading. These projects will increase the total gaming area of our casino estate by 3.5% to approximately 565,000 square feet.

In addition to our existing estate of 36 casinos we have been granted seven new casino licences under the 1968 Gambling Act and have certificates of consent for a further three. We expect the first of these new casinos to open during 2007.

After a difficult first half, Blue Square's performance improved in the second half. For the year as a whole, the business recorded revenue growth of 2.7% and an operating loss of £1.7m (2004: operating profit of £2.7m). This resulted from weaker sportsbook margins, initial losses from the Blue Square betting shop and increased investment in marketing and product development.

We are encouraged by Blue Square's continued development in on-line gaming, and in particular our poker and casino products. We have grown active membership by 18.9% (finishing the year with more than 232,000 members) and our strategy of migrating customers from on-line sports betting to on-line gaming is proving successful.

In 2006 we will seek to accelerate the momentum we have created in on-line gaming with the launch of a range of new products. A busy sporting calendar, which includes the 2006 FIFA World Cup in Germany, is expected to provide a boost to sports betting and creates an opportunity to drive membership growth in on-line gaming.

Hard Rock has enjoyed another good year with operating profit up by 24.7% on revenue growth of 7.8%. A substantial increase in profits from our hotel and gaming interests and the continued improvement of our company-owned cafes were the key drivers behind this performance. Divisional overheads increased as a result of continued investment in the Hard Rock brand, both in terms of marketing expenditure and development resources for hotels and casinos.

Hard Rock Cafes

Our strategy for owned cafes is to generate sustainable growth by enhancing the product offering in dining and merchandise; strengthening our brand marketing; and improving the quality of our portfolio. In 2005 this approach yielded a 15.0% rise in operating profit on revenue growth of 5.5%.

Hard Rock like-for-like cafe sales %

	Food & Beverage %	Merchandise %	Total %
To 31 December 2005			
North America	5.8	-1.7	3.3
Europe	4.6	10.9	6.5
Total	5.5	1.3	4.1

Company-owned like-for-like sales grew 4.1%, with improved performances in both food and beverage and in merchandise.

In the summer of 2005 we re-launched the Hard Rock Cafe menu across all of our owned cafes. This allowed us in the second half of the year to realise a pricing opportunity in many of our cafes in North America. These actions contributed to like-for-like food and beverage sales increases of 5.8% in North America and 5.5% across our owned estate.

In merchandise we have developed a more diverse range of Hard Rock apparel and branded goods, with an increased emphasis on fashion and clothing inspired by recording artists. At the same time we have sharpened our retail focus through more efficient stock churn and a redesign of our 'Rock Shops'. These actions have helped to generate like-for-like sales growth in merchandise for the first time in ten years.

Royalties and fees from our franchise cafes increased by 21.2% to £6.3m. Investment in organisational support, marketing and brand standards compliance caused operating profit for the year to dip to £5.0m.

We continue to upgrade the quality of our cafe portfolio through selective new openings, relocations and the closure of under-performing sites. In August we relocated our cafe in New York City. After 22 years on West 57th Street, the Hard Rock Cafe moved to a new flagship location in the legendary Paramount Theater on Times Square, with room for 708 diners, an 1,800 square foot Rock Shop and a Hard Rock Live! concert venue.

We ended 2005 with 123 Hard Rock cafes, including 67 company-owned and 56 under franchise. These figures include two franchise cafes in Mexico that have been closed temporarily due to damage inflicted by Hurricane Wilma. In 2006 we expect to add between 5 and 7 new cafes to the Hard Rock portfolio with the majority added in international markets by our franchise partners.

Hard Rock Hotels and Casinos

A full year contribution from the two Hard Rock Hotels and Casinos operated by the Seminole Indian Nation in Florida has helped drive an improvement in operating profit from our hotels and casinos. Equity distributions from our 25% share in Universal Rank Hotels (comprising three hotels in Orlando, Florida) increased by £2.3m, reflecting continued strong performance.

In 2006, we will open the 192-bedroom Hard Rock Hotel Madrid, through our Lifestar joint venture with Sol Melia. Plans to open additional hotels include the Paramount Hotel in New York and the first Hard Rock condo-hotel in San Diego, California. We expect these hotels to open under the Hard Rock brand during 2007 and 2008.

In addition we plan to open a 318-bedroom Hard Rock Hotel & Casino in Biloxi, Mississippi. This development was in the middle of its opening programme in September 2005 when it sustained major damage as a result of Hurricane Katrina.

US Holidays

US Holidays	<u>30.4</u>	<u>32.2</u>	<u>2.2</u>	<u>4.1</u>

Revenue declined by 5.6% in US Holidays, our time-share accommodation, camping and hotels business in the Pocono Mountains, Pennsylvania. Operating profit fell to £2.2m (2004 - £4.1m), in part due to costs relating to an aborted gaming licence application.

DISCONTINUED OPERATIONS

Deluxe Film and Deluxe Media Services are classified as businesses held for sale. As a consequence, both businesses are reported as discontinued operations. The disposal of Deluxe Film was finalised on 27 January 2006.

Deluxe Film

Deluxe Film, the film services business, delivered 13.4% growth in revenue to £415.7m (2004: £366.6m) and operating profit before exceptional items of £65.7m (2004: £59.8m), an uplift of 9.9% driven by a 51.3% increase in revenue and a 77.6% increase in operating profit in Creative Services.

The Group has reported a pre-tax provision for loss on disposal of Deluxe Film of £150.4m.

Deluxe Media Services

Deluxe Media Services, our DVD and CD manufacturing and distribution business, made an operating loss before exceptional items of £16.4m (2004: £9.6m profit).

The Group reported a pre-tax £136.5m exceptional charge which included the revision to the expected net realisable value of the business (£80.2m), European restructuring (£27.5m) and US bad debt and restructuring costs (£28.8m).

CASHFLOW AND NET DEBT

Cash outflow	(65.1)	(8.5)

Operating cash flow was £66.2m lower than 2004. This is largely due to a net outflow in respect of contract advances in Deluxe and costs relating to the disposal of the discontinued businesses.

Net debt

Net debt at 31 December 2005 was £739.4m compared with £641.8m at 31 December 2004. The increase is principally due to contract advance payments, costs associated with the discontinued businesses and foreign exchange translation of US debt as a consequence of a stronger US dollar.

SHAREHOLDER INFORMATION

SEC De-registration

At an extraordinary general meeting held on 4 August 2005, a resolution was passed approving amendments to the Company's Articles of Association to facilitate termination of its registration with the US Securities Exchange Commission (the "**SEC**"). The amendment to the Articles of Association included a provision conferring upon Rank's Board the power to require ordinary shares which are held directly or indirectly by US residents ("**US Holders**") to be sold to reduce the number of such shareholders to below 300, as presently required by the SEC for termination of registration.

In order to avoid the costs of complying with SEC registration requirements for the financial year ended 31 December 2005 and to suspend its SEC reporting and other applicable US obligations, the Company intends to commence exercising the compulsory transfer provisions.

The Board has identified the US Holders who will be required to dispose of their ordinary shares (selected on the basis of relative size of holding and taking smallest holdings first) in the current exercise of the compulsory transfer provisions and notices will be despatched to affected shareholders imminently. Affected US Holders who do not dispose of their shares within 21 days in accordance with the notice may have their shares compulsorily transferred by the Company. Subject to the price at which such shares are purchased being no worse than the price reasonably obtainable in the market, the Company may itself purchase ordinary shares from US Holders whose shares are being compulsorily transferred.

Dividends

The proposed final dividend of 10.3p per Ordinary share, together with the interim dividend of 5.0p per Ordinary share, makes a total for the year of 15.3p (2004 – 14.6p). The record date for the final dividend is 18 April 2006 and the payment date is 11 May 2006.

Board Changes

As has been previously announced Ian Burke will succeed Mike Smith as Chief Executive of Rank with effect from 6 March 2006 and Mike Smith will retire from the Company at the end of March 2006.

We are today announcing the appointment of Bill Shannon to the Board as a non-executive director with effect from 3 April 2006. He will join the Remuneration, Audit and Nominations Committees.

The Annual General Meeting of the Company will be held on Wednesday, 26 April 2006, at the conclusion of which two non-executive directors, John Sunderland and Oliver Stocken, will retire from the Board, after eight and seven years respectively.

John Sunderland is currently the Senior Independent Director and chairman of the Board's Remuneration Committee; Richard Greenhalgh will be undertaking both of those roles with effect from 27 April 2006.

Oliver Stocken is chairman of the Board's Audit Committee; John Warren will undertake that role with effect from 27 April 2006.

Annual General Meeting

The Annual General Meeting will be held at 11.30am on 26th April 2006 at the Plaisterers Hall, 1 London Wall, London EC2Y 5JU.

NOTES TO THE FINANCIAL STATEMENTS

1. Basis of preparation and accounting policies

The financial statements attached do not constitute the full financial statements within the meaning of Section 240 of the Companies Act 1985. They are extracted from the draft financial statements for the year ended 31 December 2005. Full accounts for The Rank Group Plc for the year ended 31 December 2004 have been delivered to the Registrar of Companies. The auditors' report on those accounts was unqualified and did not contain a statement under Section 237(2) or Section 237(3) of the Companies Act 1985.

The Directors approved this announcement on 2 March 2006.

The Group adopted International Financial Reporting Standards (IFRS) on 1 January 2005. The principal accounting policies adopted under IFRS and applied in the preparation of the financial statements are available on the Group's website, www.rank.com except as noted below.

Reconciliations from UK GAAP to IFRS of the Group's net assets at 1 January 2004 and 31 December 2004, and of the Group's net loss for the year ended 31 December 2004, are also available on the Group's website.

For the year ended 31 December 2005, the Group is required to prepare its annual financial statements in accordance with accounting standards adopted for use in the European Union ("EU"). As such those financial statements will take account of the requirements and options in IFRS 1 "First-time adoption of International Financial Reporting Standards" as they relate to the 2004 comparatives included therein.

The accounting policies have been consistently applied to all periods presented, except those relating to the classification and measurement of financial instruments. As permitted by IFRS 1, the Group has not restated its 2004 comparatives to reflect IAS 32, "Financial Instruments: Disclosure and Presentation" and IAS 39, "Financial Instruments: Recognition and Measurement". The adoption of IAS 32 and 39 on 1 January 2005 increased shareholders' equity by £16.2m.

Treatment of sports betting and internet gaming revenue

Following clarification of IAS 39, betting and internet gaming transactions are now shown net within the revenue line of the income statement i.e. stakes less payouts, known as gross winnings. There is no impact on gross profit. For the purposes of meaningful comparison, 2004 has been restated. The impact is to decrease prior year revenue and cost of sales by £414.0m.

Exceptional items

The Group defines exceptional items as those items which by their size or nature distort the comparability of the Group's results from year to year.

Continuing Operations

During the year, the Group reported a £8.6m post tax exceptional gain as detailed below.

In light of the reduced opportunities presented by the 2005 Gambling Act, the Group reviewed the onerous lease provisions against vacant properties. As a result, the Group recognised an onerous lease charge of £12.1m within continuing operations.

The Group also incurred exceptional financing costs of £3.6m as a result of the closure of an outstanding issue with the tax authorities.

The Group recognised an exceptional tax credit of £24.3m including a prior year current tax adjustment of £19.6m credit, which has arisen as a result of the closure of an outstanding issue with the tax authorities.

Exceptional items relating to discontinued operations are discussed in Note 2.

2. Discontinued operations

The Deluxe Film and Deluxe Media Services businesses meet the IFRS criteria required to be classified as discontinued operations. As a result, revenue is excluded from the income statement and the results of the business, including any associated exceptional costs, are recorded in a single line on a post-tax basis. A breakdown of the results of discontinued operations is shown below. Deluxe Film was sold in January 2006 resulting in the crystallisation of the provision for loss on disposal.

Exceptional Items

Deluxe Film

The Group has reported a pre-tax provision for loss on disposal of Deluxe Film of £150.4m, based on the fair value of expected sales proceeds less costs to sell.

Deluxe Media Services

The Group has reported a pre-tax £136.5m exceptional charge which includes the revision to the expected net realisable value of the business (£80.2m), European restructuring costs (£27.5m) and US bad debt costs and restructuring costs (£28.8m).

The adjustment to the held for sale carrying value of Deluxe Media Services recognises that the value expected to be received for the business is likely to be substantially lower than previously stated.

The exceptional items in the US mainly relate to bad debts (£21.1m), restructuring (£5.0m) related to the closure of VHS operations and other items (£2.7m). The most significant bad debt relates to a major customer who is in US Chapter 11 bankruptcy proceedings.

The exceptional items incurred in Europe relate to the restructuring of the European business including costs for the closure of CD and VHS manufacturing in the UK, Spain, Sweden, France, Germany and Italy.

Assets and liabilities relating to the discontinued operations are as follows.

	As at 31.12.05 DMS £m	As at 31.12.05 Film £m	As at 31.12.05 Total £m	As at 31.12.04 DMS £m

	(45.8)	(14.5)	(60.3)	(25.4)	27.2	1.8

3. Tax

The tax charge, including amounts disclosed within discontinued operations, may be analysed as follows:

	Year to 31.12.05 £m	Year to 31.12.04 £m
Rank subsidiaries - continuing operations		
- Adjusted profit	21.3	22.3
- Foreign exchange on inter-company loans	8.1	(8.8)

Exceptional tax credit		
- continuing operations	(24.3)	(10.3)
- discontinued operations	(20.8)	(1.9)
	(45.1)	(12.2)

The exceptional tax credit of £45.1m includes a prior year current tax adjustment of £19.6m credit, which has arisen as a result of the closure of an outstanding issue with the tax authorities.

In addition, a £0.6m (2004: £0.5m) tax charge has been included within post tax results of associates and joint ventures.

Diluted earnings per share - continuing operations		
before exceptional items	5.7 p	14.6 p
after exceptional items	7.1 p	9.8 p
Diluted earnings (loss) per share - discontinued operations		
before exceptional items	1.9 p	7.9 p
after exceptional items	(40.6) p	(11.5) p
Basic adjusted earnings per share	10.1 p	12.7 p

The weighted average number of shares used in the calculation of basic earnings (loss) per share is 624.5m (2004: 598.7m). For diluted earnings (loss) per share the weighted average number of shares used in the calculation is 626.0m (2004: 645.7m).

Options are dilutive at the profit from continuing operations level and so, in accordance with IAS 33, have been treated as dilutive for the purpose of diluted earnings per share. The diluted loss per share is lower than basic loss per share because of the effect of losses on discontinued operations.

7. Exchange rates

The US\$/£ exchange rates for the relevant accounting periods are:

US\$/£	Year to 31.12.05	Year to 31.12.04
Average	1.81	1.84
Period-end	1.72	1.92

Movements in exchange rates had a minimal impact on the operating profit of the continuing group but did increase net debt by £48.4m during the year.

8. Borrowings to net debt reconciliation

Under IFRS, accrued interest is classified as borrowings. In addition, net debt, which is part of the assets and liabilities held for sale is disclosed separately. A reconciliation of net borrowings disclosed in the balance sheet to the Group's net debt position is provided below.
