

The Rank Group Plc

Peter Johnson
Chairman

Over the course of the year, Rank delivered a total return to shareholders of 22.6% as the stock market responded positively to the Group's revenue growth, the effectiveness of its cost control measures and further substantial reductions in net debt and financial leverage.

Operating successfully

At the heart of Rank's strategy to achieve long-term growth in earnings per share is a focus on reaching out to a wider customer base, extending both the reach and the relevance of our businesses.

In order to achieve this, the board recognised that it needed to bring about a change in culture, allying broader retail expertise to our strong understanding of the gaming market and its regulatory framework.

Since 2008, Rank has appointed new managing directors in its three largest businesses. Each has an operational background in either leisure retail or online retail.

In June 2009, Mark V Jones, an experienced operator of pubs and restaurants, joined us as managing director of Mecca Bingo to lead the transformation of that business.

Reflecting this cultural shift, Rank has started to build a reputation for innovation in the development, refinement and deployment of new concepts and new customer experiences in leisure, based around gaming.

In 2009, the Group stepped up the pace of expansion for its proven G Casino format. By the end of the year, the G Casino brand had grown from six to

ten casinos, with each delivering levels of customer visits and revenue significantly higher than the average across the remainder of the estate.

The year also saw the launch of the Mecca 'Full House' club concepts. The first Mecca 'Full House Destination' opened in Nottingham in May 2009, offering a new style of gaming-based social entertainment, aimed principally at women. The early performance of the club has been encouraging and we have now developed two additional sites under the format.

At the same time, the Group achieved much closer integration between its online and land-based gaming brands, exploiting opportunities for revenue and cost synergies.

Capital structure and dividend policy

During 2009, the Group carried out a review of its capital structure and dividend policy, against a background of operational improvements, significant growth in earnings per share and a sustained reduction in net debt. As a result of this review, Rank intends to adjust its capital structure to target a level of around 2.5 times net debt to EBITDA over the medium term.

In addition, the board has determined to recommend a resumption of dividend payments, beginning with a 1.35p per share final dividend for 2009. The dividend will be paid on 5 May 2010 to shareholders on the register at 6 April 2010.

We plan to adopt a progressive dividend policy, taking into consideration the Group's capital investment requirements and the stability of the wider operating and economic environment. Within this context, the board intends to set dividends such that Rank achieves a dividend cover of around 3.0 times over the medium term.

Outlook

While the board is pleased with the progress achieved during 2009, opportunities and challenges lie ahead. The current year is forecast to be a period of gradual, if fragile, economic recovery in the UK, Rank's key market, whilst the outcome of the forthcoming general election is likely to influence the regulatory and tax landscape for gaming and betting in Britain.

Rank's primary focus remains on delivering service excellence to our customers as a means of generating

value for our shareholders. The board believes that the quality of Rank's customer propositions, its standards of service and insight and the in-depth strength of its management team give the Group a platform for sustainable growth.
